### B. HAZARDOUS WASTE/HAZARDOUS SUBSTANCE INFORMATION:

For Period from: Jan 1, 2018 to: Dec 31, 2018

Types and Amounts of Hazardous Waste:

1. Does your site segregate its hazardous waste?

(See <https://www.epa.gov/hw/learn-basics-hazardous-waste#hwid> for a definition of hazardous waste.)

  X   YES             NO

2. If the site's hazardous waste is segregated, what quantity of hazardous waste is generated on a monthly basis?

It varies, we can have pharmaceutical waste, expired alcohol products, corrosive sterilizing agents, and more. Oil, lights, batteries vary as well.

3. Where is the hazardous waste stored (e.g., outside storage pad, inside enclosed building, warehouse, etc.)?

The waste is stored in bldg. 72. The waste bldg is designed for storing waste and has a built in sump that can be pumped out if needed. There is explosion proof lighting and ventilation as well with alarms, and communication by phone.

4. How is the hazardous waste stored (e.g., drums, other containers, etc.)?

The waste is packaged in hard containers, barrels, original packaging, or boxes based on the materials. All packaging is lockable or sealed by manufacturer.

5. Is the hazardous waste stored in drums with secondary containment? If so, what

type? *Plastic spill pallets or in the Hazwaste Room within Bldg 72. There is a dry sump designed with sloped floors.*

X \_\_\_\_\_ YES \_\_\_\_\_ NO

6. How long is the hazardous waste stored? (before it is transported for disposal)

Less than 90 days. We have a contracted waste hauler.

7. Describe the site's hazardous waste disposal process.

The generating service collects the waste in a satellite site. Waste is then removed within 24 hours after it is full. The waste is taken to bldg 72 where it is processed, weighed, and stored for transport. The contractor waste hauler comes every 90 days to pick up whatever is in bldg 72, and take it to the disposal facility.

8. Have there been any releases of hazardous waste at the site (For example, a spill or a leaking drum)?

\_\_\_\_\_ YES      <sup>X</sup> \_\_\_\_\_ NO

a. If so, what type of release(s) occurred?

N/A

b. When did the release(s) occur?

N/A

c. What was the estimated quantity of the hazardous waste released?

N/A

d. Was the release reported to a Federal/State Agency? If so, specify to which Agency?

N/A

---

9. What happened to the released hazardous waste? Was it contained? If not, was any media impacted (e.g., air, soil, surface water, groundwater)?

N/A

10. Following the release, what remediation/clean up efforts were undertaken?

N/A

11. Is there documentation of the remediation/clean up efforts?

\_\_\_\_\_ YES\*   X   NO

(\*Please include copies of all documentation with this completed questionnaire.)

12. Please provide any additional information and comments for the event.

N/A
